Water Quality Testing for Private (Domestic) Wells: NHDES recommends residents test their well water for all contaminants commonly found in New Hampshire’s groundwater, listed in Table 2 below. Private well owners are encouraged to test their water wells every three to five years for the complete set of contaminants listed below. Contact an accredited laboratory to confirm the lab’s capacity to complete all recommended tests and for pricing. It is not necessary to do all of these tests at one time.

NHDES *Be Well Informed* Private Well App – is an interactive web application for private well owners to interpret water quality test results and identify appropriate water treatment options. Visit <https://www4.des.state.nh.us/DWITool/Welcome.aspx>.

¹ Updated 6.28.2018. Subject to change. For up-to-date information, see <http://www2.des.nh.gov/CertifiedLabs/Certified-Method.aspx>.

For questions related to accredited laboratories contact:

New Hampshire Environmental Laboratory Accreditation Program

29 Hazen Drive, PO Box 95

Concord, NH 03302-0095

<https://www.des.nh.gov/organization/divisions/water/dwgb/nhelap/index.htm>

(603) 271-2998

nhelap@des.nh.gov

For more information about NHDES recommended private well water quality testing, see NHDES' Fact Sheet WD-DWGB-2-1 Suggested Water Quality Testing for Private Wells (2011) online at

<http://des.nh.gov/organization/commissioner/pip/factsheets/dwgb/documents/dwgb-2-1.pdf>.

Table 2 NHDES Recommendations for Private Well Testing	
Standard Analysis	Testing Frequency
Arsenic Bacteria Chloride Copper Fluoride Hardness Iron Lead Manganese Nitrate/Nitrite pH Sodium Uranium	Every 3 to 5 years (except for bacteria and nitrate, which are recommended yearly)
Radiological Analysis	
Radon Uranium Analytical Gross Alpha	Every 3 to 5 years
Volatile Organic Compounds (VOCs)²	
VOCs	Every 3 to 5 years

For more information or technical assistance related to private well testing visit NHDES' website, www.des.nh.gov, go to the A to Z List and find Private Well Testing and visit the Private Well Testing Program webpage. NHDES' *Be Well Informed* Private Well App – is an interactive web application for private well owners to interpret water quality test results and identify appropriate water treatment options. Visit <https://www4.des.state.nh.us/DWITool/Welcome.aspx>.

² The most common VOCs come from gasoline compounds, such as MtBE and benzene, and industrial solvents.
